

Raul Henrique Silva Sigoli

Full-Stack Developer (React, Next.js, Node.js, TypeScript)

Maringá, PR — Brazil (open to remote) | raul_sigoli@hotmail.com | +55 44 99165-8351 | linkedin.com/in/raul-sigoli-137bb4173 | github.com/rauzola | raul-portfolio.vercel.app | curriculo-navy.vercel.app

SUMMARY

Full-Stack Developer with ~4 years of experience, focused on React, Next.js, TypeScript and Node.js, with end-to-end ownership — from front-end to database, API and AI integration. At ID Brasil Sistemas, builds Wincrm, a multi-tenant SaaS CRM, and created AI features with OpenAI (function-calling) that perform real actions inside the platform. As a freelancer (SIGOLI brand), delivers custom websites and systems with concrete SEO results, including a site ranked #1 on Google with a 100% SEO score. Practices AI-assisted development (Cursor, Claude Code, Codex) to ship faster while keeping quality, tests and clean code. Seeking a Mid-level Full-Stack role where product delivery, performance and an AI edge come together. English: technical documentation reading.

SKILLS

Front-end: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Styled-components, Ant Design v5, Redux Toolkit, React Query (TanStack), Vite, Leaflet

Back-end & Databases: Node.js, REST APIs, GraphQL, Prisma, PostgreSQL, Supabase, MySQL, MongoDB, Java

AI & Integrations: AI-assisted development (Cursor, Claude Code, Codex, OpenCode), Prompt engineering, OpenAI / LLMs (function-calling), WhatsApp Business API (Meta), API integration, Webhooks

Testing & Tools: Jest, React Testing Library, Storybook, Git, SVN, Vercel

Design: Adobe Photoshop, Adobe Illustrator, Adobe Premiere

PROFESSIONAL EXPERIENCE

Front-end / Full-Stack Developer

ID Brasil Sistemas | Sep 2025 — Present | Maringá, PR (on-site)

- Build Wincrm, a multi-tenant SaaS CRM for loyalty and customer relationship, in React 18, TypeScript, Vite, Ant Design v5, Redux Toolkit and React Query (TanStack), shipping product to production.
- Implemented cashback modules with FIFO logic, campaigns, bulk messaging, an RFV matrix for customer segmentation, and reports with ApexCharts, expanding the CRM's loyalty intelligence.
- Built role-based access control (RBAC) with 4 levels, ensuring security and data isolation in the multi-tenant architecture.
- Integrated the WhatsApp Business API (Meta) with Embedded Signup, template management and message dispatch, enabling communication at scale from within the CRM.
- Created ChatIA RFV, an AI feature that uses OpenAI with function-calling to analyze the customer base and run real actions in the CRM — tagging segments, creating campaigns, sending messages and reactivating benefits — plus an automated analysis panel.
- Contribute to Codex, an internal development-management platform (Kanban, sprints, metrics and auditing), in Next.js 15, React 19, TypeScript, Tailwind CSS, Prisma, MySQL and MongoDB.
- Ensured quality with Jest tests and component documentation in Storybook.

Full-Stack Developer (SIGOLI brand)

Freelancer | Aug 2023 — Present | Maringá, PR (remote)

- Built institutional websites, landing pages, custom systems and CMS for small businesses and professionals, in Next.js, React, TypeScript, Tailwind CSS, Styled-components, Supabase, Prisma, Prismic CMS and REST APIs.
- Delivered Projeto Mais Vida (Next.js, Supabase, Prisma, PostgreSQL): a site ranked #1 on Google with a 100% SEO score, plus an event-management system with RBAC authentication, registrations, calendar and reports, in production for over a year.
- Built the Habilidades Humanas RH website in Next.js and Prismic CMS, earning a recurring client with a testimonial and new referrals.
- Built the Borracharia Ceasa website, a 48-year-old company in São Paulo, focused on B2B lead capture, local SEO and WhatsApp integration.
- Built the MAREV NGO website in Next.js, Prisma and PostgreSQL.
- Owned the full cycle: requirements, front-end, back-end, database and SEO optimization.

IT Teacher (Social Project)

Maringá City Hall | Aug 2024 — Dec 2024 | Maringá, PR

- Taught basic computer skills (Word and Excel) at the Antônio Paulo Pucca Youth Center, for children and young

people aged 12 to 29 in situations of social vulnerability.

Front-end Intern (React)

Datlo (Y Combinator S21) | Oct 2022 — Jul 2023 | Maringá, PR

- Built the front-end of a location-intelligence platform that helps companies find customers, monitor competitors and choose store locations, in React, Next.js, TypeScript, Ant Design, Leaflet, Styled-components and GraphQL.

IT Intern

ANPAD | Aug 2020 — Aug 2022 | Maringá, PR

- Built front-end of websites and event routes.
- Edited video (Adobe Premiere) and images (Adobe Photoshop).

IT / Infrastructure Intern

Pressure Compressores | Feb 2019 — Nov 2019 | Maringá, PR

- Worked in IT infrastructure, maintaining computers, printers and systems.

Video Editor

Band Maringá | 2017 — 2018 | Maringá, PR

- Edited videos and segments for the weekly Programa da Mirna Lavecc.
